Experience

Fleetio

SENIOR BRAND DESIGNER | REMOTE | MAY 2021-PRESENT

- Built Fleetio's web design system end-to-end in Figma and connected it directly to production via GitHub, creating a 1:1 design-to-code pipeline that lets engineers ship UI straight from the source of truth I build and maintain.
- Build and maintain Fleetio's component library, design tokens, and motion patterns across web — reusable components I designed and shipped cut design workload by 30% without sacrificing craft.
- Art directed the Fleet Manager's Manual, a long-form content experience that generated 1,000+ MQLs over three years, demonstrating how brand craft drives measurable pipeline.

Move & Store

MARKETING DIRECTOR | BIRMINGHAM, AL | AUG 2018- MAY 2021

- Established scalable processes and workflows to ensure a consistent and seamless customer experience across brands. I built email workflows for every step of the buying process for each company as well as scalable and repeatable ad campaigns.
